MEMORANDUM FOR FUELS AUTOMATED SYSTEM USERS

SUBJECT: Fuels Automated System (FAS) Base Level Computers and Software

The Defense Energy Support Center (DESC) and Fuels Automated System Program Office (FAS PO) will retain ownership and authority of all FAS equipment and associated software used in conjunction with the FAS program. Moving or shipping FAS computers to a temporary site is not authorized unless first approved by the FAS PO. DESC is responsible for monitoring FAS equipment warranties, upgrades, and/or replacements.

FAS PO has an End-User License Agreement with E + H Coggins Systems, Inc. for the following FAS software: FuelsManager and Fuels Control Center. This License Agreement does not restrict the number of sites, as identified by the FAS PO, authorized to utilize FAS software. FAS software can be installed on an unlimited number of base level FAS computers, which are owned by DESC or compatible computers not owned by DESC.

a. FAS PO will retain management and distribution control of all FAS software to include, but not limited to maintenance, licensing, and replacement. The licenses applicable under the DLA/Microsoft agreement are non-transferable to hardware not owned by DESC.

b. The database of the Fuels Control Center application and the database of the FuelsManager application must remain on the hard drive of a DESC owned computer.

The FAS PO extends End-User software functionality support, via the FAS Help Desk, for FAS software installed on computers not owned by DESC. The FAS Help Desk is only responsible to support the functionality of the FAS application software on computers not owned by DESC. The FAS PO will not resolve issues concerning hardware-software compatibility for FAS software installed on computers not owned by DESC by base level site personnel.

If you have any questions regarding FAS hardware and/or the software, you may contact Ms. June Flynn at (703) 767-8622.

WILLIAM L. BELL
FAS Program Manager
